

Hyosung is revolutionizing the self-service industry. The **MX8800** is a multifunctional, cash recycling, on demand tablet/video branch solution. The **MX8800** gives your consumers a choice on how to interact: self-service or with the help of on demand tablet/video assistance. When deployed with our integrated software approach and video assistance support, the **MX8800** supports a wide range of transactions, not just ATM transactions.

Learn why large and small institutions continue to deploy thousands of the **MX8800** series today, making Hyosung the fastest growing ATM company in the US.

KEY FEATURES

INNOVATION

Full function deposit capability, ability to deliver transactions through self-service or with the support of on demand tablets/video agents and recycling, the **MX8800** has helped make Hyosung the fastest growing ATM company in the US.

High capacity recycling enables financial institutions to not only deliver convenience to consumers but creates efficiencies within the cash cycle.

A footprint that enables placement in the area/space currently inhabited by a traditional ATM.

USABILITY

A user interface specifically adapted to accommodate the full range of branch banking needs.

A dual screen interface that enhances security and provides unparalleled video teller assistance.

Multiple customer authentication options including contactless and biometrics.

HIGHEST AVAILABILITY

Innovative modular design and high capacity allow industry leading availability and serviceability. Fast, easy replenishment and reduced downtime.

The **MX8800** is designed to provide reliability that is unequalled in the market, with minimum maintenance and maximum uptime.

CAPACITY

High capacity, cash recycler capability and the ability to support multi-check function.

FUNCTIONALITY

The **MX8800** delivers an unparalleled range of transactions when deployed in conjunction with Hyosung's innovative integrated software approach and powerful video assistance solutions.
