

A Cost-Effective Alternative for FDIC Compliance

Fiserv has recently notified customers of a \$660 per-terminal charge to enable FDIC logos. However, this fee does not ensure compatibility with Hyosung ATMs, which may create unexpected challenges.

For a one-time setup fee of \$500 plus \$195 per terminal, we provide a reliable approach to compliance—one that has already been successfully implemented across multiple banks.

With NuSource, you receive:

- **Software Upgrade** – BlueVerse 02.02.04.00, ensuring a clear FDIC banner on every transaction screen for compliance and customer confidence.
- **Market System Package Update** – An optimized enhancement that improves security, speeds up processing, and integrates seamlessly with your existing hardware.
- **A Streamlined Approach** – Cost-efficient, straightforward, and fully within your control.
- **NuView** - Bank must be using NuView to qualify for this program.

NuSource delivers compliance and peace of mind—without unnecessary costs or complications. Contact us today to explore how we can support your institution.
